

# BUCCOLA ENGINEERING, Inc.

---

To Whom It May Concern:

It has been our pleasure to work with GEOGRID Retaining Wall Systems, Inc., in the process of site layout and design of Keystone retaining walls. We have worked with Geogrid Retaining Walls on several projects over the years. Designs include commercial, private and public works projects and we have found their design team to be both competent and solution driven.

Sincerely,

Philip Buccola
